

Sustainable Raw Material Policy

Avary Holding is committed to continuously increasing the proportion of sustainable raw materials used in our products to reduce the environmental and social impact throughout the product life cycle. We actively cooperate with our supply chain partners and external stakeholders to implement sustainable development practices through the following policy guidelines:

1. Continuously Increase the Use of Recycled Raw Materials

Avary Holding prioritizes the adoption of recycled raw materials and continuously increases their usage to reduce potential negative environmental impacts.

2. Increase the Ratio of Sustainable Raw Materials Verified by Third Parties

Avary Holding prioritizes the adoption of sustainable raw materials verified by third-party certifications, continuously increasing their usage, and encouraging suppliers to obtain relevant sustainability certifications for raw materials.

3. Avoid Impact on Biodiversity from Raw Materials Used

Avary Holding is committed to avoiding the use of raw materials sourced from globally and nationally significant biodiversity conservation areas. We actively protect biodiversity and minimize environmental and ecological impacts.

4. Minimize Negative Impact on Sustainability from Raw Materials Used

Avary Holding is committed to continuously optimizing raw material traceability management mechanisms, and conducts due diligence on environmental safety and human rights, and ensures suppliers comply with our code of conduct to minimize the negative environmental and social impacts associated with raw materials.

5. Regular Review and Continuous Improvement

Avary Holding is committed to regularly reviewing the implementation of our sustainable materials policy and making continuous improvements based on the latest technological developments and industry best practices.

6. Transparent Communication and Reporting

Avary Holding is committed to regularly publishing reports on the implementation of our sustainable materials policy, transparently disclosing our progress and challenges to all stakeholders.
